

*I built this
for myself.
It works.
Take what's useful.*

Swipe to see the toolkit →

“

Systems optimize
expression until the
honest version is too
expensive to say.

1

CONTAINER

Create safety.
Set the relational field.
The work begins before
anyone speaks.

2

EXCAVATION

Listen for what's alive.
Find the inside version.
The one they don't say
in the boardroom.

3

PERFORMANCE

A camera ships.
They film themselves.
Truth gets captured
on their terms.

4

TRANSLATION

Edit. Return.
Everything goes back.
The story travels
without you in the room.

ROYAL

- Completion rates
- Cost per outcome
- Satisfaction scores

NOMADIC

- Reciprocity shifts
- Somatic safety
- Surprise emergence

“

*The liver processes
and expresses.*

*The full stack is
open source.*
