

RUBINSTEIN PRODUCTIONS

The liver processes and expresses.

An open-source toolkit for facilitation, film, and honest expression.

Four phases. One principle: honesty becomes possible again.

1

CONTAINER

Create safety.
Set the relational field.

2

EXCAVATION

Listen for what's alive.
Find the inside version.

3

PERFORMANCE

Camera ships. They film
themselves. Truth gets captured.

4

TRANSLATION

Edit. Return. The story
travels without you.

Measuring what matters in two languages at once.

ROYAL METRICS

The institutional language.

What funders and boards need to see.

- Completion rates
- Satisfaction scores
- Cost per outcome
- Referral metrics
- Time to deployment

NOMADIC INDICATORS

The relational language.

What emergence looks like.

- Reciprocity shifts
- Narrative coherence
- Somatic safety signals
- Surprise emergence
- Energy sustainability

THE STACK

methodology/

Facilitation protocol, ENIF, Nomadic Indicators, session guides, theory of change

prompts/

15+ AI skill files, brand context, creative strategy, instantiation prompt

cli/

Outreach pipeline, grant tracking, prospect mgmt. Obsidian-native, zero deps.

templates/

Prospect, funder, client onboarding, case study, pipeline dashboards

grants/

Theory of change, evaluation framework, fiscal sponsorship, funder research

production/

DaVinci Resolve workflow, color grading, iPhone filming guide

Say Why

THE NONPROFIT INITIATIVE

Facilitation and film for communities that have something true to say
— and no infrastructure to say it.

SHIP

Cameras go to
participants. They
film on their terms.

MEASURE

Bilingual Dashboard
tracks institutional
and relational outcomes.

RETURN

All footage, data,
and artifacts belong
to the community.

THE FLYWHEEL

Every node feeds every other node.
